

# MOONBASE ALPHA

## Level J

1. Command Center
2. Medical Center
3. Power/Life Support Section (Level J)
4. Accommodation Unit
5. Dining Facility
6. Life Support Equipment
7. Technical Labs
8. Water Recycling and Storage Plant (lower level)
9. Eagle Maintenance Bay (pressurized area)
10. Nuclear Furnace (lower level)
11. Hangar Section (pressurized area)
12. Eagle Module Storage
13. Observation Balcony and Control Area
14. Launch Pad Lift Platform (typical)
15. Storage Bays
16. Fuel Storage
17. Travel Tube to Research Station

**LEVEL J** is the lowest level in use on Moonbase Alpha. Here are the hangars and service bays for the Eagle Spacecraft and the necessary control centers for Moonbase operations should the upper level control stations ever become useless.
